2019 ANNUAL CONFERENCE

Wisconsin Society of Plastic Surgeons

Friday, April 12, 2019

The Westin Milwaukee
Milwaukee, WI

ATTENDEE REGISTRATION

Who Should Attend?

This program is intended for plastic surgeons, PAs, NPs, nurses and all staff involved in caring for plastic surgery patients.

Featured Speaker:

James Namnoum, MD

Dr. Namnoum positioned himself in the top echelon of plastic surgeons through the training he received at the world-renowned Johns Hopkins School of Medicine and his ongoing commitment to education and innovation.

Training in general and plastic surgery laid the foundation for him to hone his skills by serving patients with a wide variety of goals for 20 years. He is now a leading expert in cosmetic and reconstructive breast surgery as well as aesthetic body contouring and facial cosmetic surgery. As a leader in aesthetic surgery, he has been selected by the American Society of Aesthetic Surgery to serve as a traveling professor teaching physicians and residents across the US.

As an experienced and highly respected lecturer that is regularly invited to serve at plastic surgery symposia around the world, Dr. Namnoum is a leader in the latest and most innovative trends and techniques in plastic surgery. For many years, he has served as the co-director of the Atlanta Breast Surgery Symposium, the foremost breast surgery meeting in the world.

Because he is among the first in the nation to gain access to many innovative products, his patients benefit from cutting-edge technology that is not available to the general public. But Dr. Namnoum does not merely put innovative technology to use for his patients. As a consultant to many companies serving plastic surgery, he contributes to the refinement of technology that enhances results for women undergoing cosmetic and reconstructive breast surgery.
